C O N F I D E N T I A L

The German authorities have no doubt as far as the end-use is concerned, since the cable is a special one used for mines only. With the exception of the 2 conductor pairs for telephone, the cable has only single conductors. The German authorities intend to grant the license and submit the request within the framework of the special policy, adopted towards Poland. The usual assurances against transshipment or diversion have been obtained from the Polish authorities.

The German Delegation would be grateful to have views of the Committee at an early opportunity.
